Consent For Audio/Videorecording Client Sessions

Purpose

Diane Forse, LCSW (herein "Therapist") and Client intend to participate in Intensive Short-Term Dynamic Psychotherapy. This type of therapy involves audio and/or video recording of client sessions. Audio/video recording permits Therapist to: 1) review what happened in the sessions; and 2) to share the audio/video recordings for supervision and consultation with advanced ISTDP therapists. The goal in both instances is to enable Therapist to better understand the client process and to be more effective.

Conditions and Limitations

The audio/video recordings will be shared only with qualified mental health professionals who are bound by law, professional obligation, or agreement to maintain client confidentiality. No party other than the therapist is being granted permission to copy or retain possession of the video recordings. The video recordings are the property of Therapist and may be erased or destroyed by her at any time. Therapist also shall erase or destroy any or all of the video recordings at the client's request. The client shall be provided with a signed copy of this document.

Acknowledgement and Consent

Client consents to the audio/video recording of client sessions subject to the terms, conditions and limitations set forth above. Client understands that their consent is completely voluntary and may be withdrawn at any time.
